رمضان مبارك

باسمه تعالى

“Oh believers! Fasting has been prescribed on you as it was prescribed on those before you, so you may learn piety and righteousness.” {Al-Quran 2:183}

Fasting in the month of Ramadan is FARDHE-MU-AYYAN {Compulsory} on every mature (Baligh) male and female.

DU'AA for breaking the fast {iftaar}

اللَّهُمَّ لَكَ صُيْمْتُ وَعَلَى رِزْقِكَ أَفْطَرْتُ

{Oh Allah I fasted for you, and upon your sustenance I break my fast}

### Things which break ones' fast

Smoking, eating or drinking intentionally, drinking any kind of medicine, water going down the throat, vomiting full mouth intentionally or returning the vomit down the throat, putting oil into the ear, to eat or drink after the dawn or breaking the fast before sunset due to cloudy sky or a faulty watch, etc.

### Things which don't break one's fast

Eating or drinking unintentionally, taking an injection, applying Kohl {surma}, vomiting unintentionally, brushing the teeth WITHOUT toothpaste, using MISWAK, etc.  
All else which you need to know, please contact the IMAAM.  
May ALLAH accept your Ramadan, Aameen.  
Remember us in your prayers.

### Important NOTE on time for Fajr (SAHRI) DON'T SPOIL YOUR RAMDHAN'S FASTING!!!

According to Quran & Sunnah, the fast begins at TULU-E-FAJAR {dawn}, and according to majority of the most authentic, reliable Scholars of Islam and astronomers, the TULU-E-FAJAR takes place on the 18 degrees when the Sun's centre has reached 18 degrees below the horizon before rising, so our timetable is based on the 18-degree method.  
For more info, you can confirm with Ulama and authentic scholars. [www.timeanddate.com/worldclock/astronomy](http://www.timeanddate.com/worldclock/astronomy)

In summer, from 21<sup>nd</sup> May to 22<sup>nd</sup> July, the Night duration is very short as the Sun does not reach to the 18 degrees' point, in this period the Fajr time does not even enter, so in this period Islamic Jurists (Fuqaha) have given 4 methods to estimate Fajr time. 1) Nearest day. 2) Nearest country. 3) Half of the night. 4) 1/7 of the night

For Ramadhan we choose 4<sup>th</sup> method after 21<sup>st</sup> May as this is the last day of twilight
